HWASHIN CYBER UNIVERSITY

Introduction

The Hwashin Cyber University has decided to offer new opportunities to all Korean Martial Arts practitioners, because we think that Martial Arts, besides the fact that we offer high level performance programs in our curriculums, is more than a winning race or a leisure activity, it's a way of life.

The three programs of the Korean Culture, Language & Martial Arts Department aims to give every martial artist in the World a chance to fulfill their dream and to add a professional dimension to their practice.

A Cyber University proposes the same courses as a classic university, but the contents are taught on Internet, on a special educative platform. This new way of teaching breaks down the geographical and physical barriers of standard classes, makes possible lower tuition fees and allows students to learn at their own pace.

The diplomas obtained in a cyber university have the same value as in a classic university and are recognized in the same way. Some of the programs of Hwashin Cyber University are completely taught on Internet, some have both on-line and off-line classes. Hwashin Cyber University also offers entirely off-line Training Camps.

For the year 2012, the contents of Culture, Language & Martial Arts Programs will be released in English, French and Spanish. Every practitioner of Korean Martial Arts with a minimum of 2 years experience interested in Korean Culture and sport performance can apply.

Stories of participants:

CRAIG BROWN

- British Champion 2001-2007,2009
- European Championship Bronze Medalist 2005,2006
- world Championship Team member 2001-2009
- Athens 2004 Olympian
- European Championship Team member 2004-2010

I was invited to train with Master Philippe In August-september of 2011 in preparation for a very important competition to help me qualify for the 2012 olympic Games in London. I found his system and training methods very effective. The combination of his Broad expertise in Various Martial arts and the facilities and Surroundings at his center proved to be the ideal setting for my preparation. After training with Philippe I came back to England and won a silver Medal in the British International A-class open in October 2011. Master Philippe is a fantastic coach who has a great relationship with players and will be a dear friend to me for life!
thank you Master Philippe!

SEIFULLA MAGMEDOV

- Russian Team Member
- Athens 2004 Olympian
- 3 times European Champions
- Beijing 2008 Olympian

Training in Busan was the best thing that happened to me lately! Even a bronze medal at the World Cup didn't give so much pleasure! Charges in Busan lifted me to the next level. and I am now training with great desire and with a soul!
When I'm exercising now, I imagine how you help me!
Insha allah we practice more

SIGURSTEINN SNORENSON

- Iceland Team Head Coach

The Icelandic national Taekwondo team had the opportunity to visit and train with Phillippe Pinerd and his team at Hwashin University. For two weeks our team trained in Busan alongside both the Hwa shin team as well as many other teams that mr. Pinerd has good connections with in the Busan area. This combination of a world class coach, great training facilities and the access to high caliber sparring partners is truly unique. It is my opinion that this is something that any national team in the world would and should benefit from. Furthermore, the beautiful nature in the Busan area, especially the beach, make this experience something that we will remember forever. Mr.Pinerd's European approach to training and his philosophy of teaching is a superbly mixed, Euro/Korean way of training that is among the very best in the world[...] But mr. Pinerd's methods of true and tested methods of training alongside brand new cutting edge physical training is remarkable. [...] We plan to come back to Busan as soon as possible and train with the best coaches, the best players, with the best methods on the best beach.
